

1. **JIMMY CHOO.** The 'Aurelia' sandal in ivory satin is sophisticated in its simplistic elegance. Crafted in Italy, this stunning design features an elegant, handmade satin orchid embellishment. Leather lined with a leather sole, 'Aurelia' is finished with a leg-lengthening 10cm heel. www.jimmychoo.com
2. **TIFFANY & CO.** The engagement ring and wedding bands are generally selected at the same time: this pavé Tiffany® Setting engagement ring in platinum with diamonds is complimented by a Tiffany® Setting band ring in platinum with pavé diamonds. A brilliant display of the brand's masterful craftsmanship. www.tiffany.com
3. **THE MERCHANT OF VENICE.** A fragrance inspired by Venice's centuries-old trade with the East, the 'Rosa Moceniga' eau de parfum seduces the senses with fresh lemon and the tender essence of Moceniga Rose: a rare and precious flower that came long ago from the plains of Central China and now grows wild in the Venetian countryside. www.themerchantofvenice.com

4. **MAX MARA.** For the most special day of your life, Max Mara recommends this thin metal hair band with a gold finish, embellished with white enamel flowers encrusted with small sparkling crystals in the centre. The elastic detail on the back guarantees a perfect fit. it.maxmara.com
5. **GIORGIO VISCONTI** 'Promessa' is the name of this precious necklace in white gold and diamonds from the Bridal collection, a line that also comprises a ring and earrings. An exquisite, sophisticated piece of jewelry created by a brand that has transitioned from being a small goldsmith's workshop to a well-established company which now collaborates with world-class designers. www.giorgiovisconti.it
6. **NATURA BISSÉ.** Sophisticated elegance and innovation are the hallmarks of this Spanish brand renowned for its highly innovative skincare products. The 'Diamond Collection' is the most luxurious, exclusive jewel for your skin. A combination of exclusive active ingredients, including Artemia Salina, which creates the energy necessary to boost skin's cellular metabolism. www.naturabisse.com
